About Steve Driscoll,  
your Airbrush teacher.

**Steve's interest in art began in early childhood, consisting of drawing and coloring just like most children. His skill and ability quickly became evident and his drawings were far more advanced than kids that were much older. Art was a passion that was encouraged by his family and teachers. In 1992, Steve opened his first T-shirt shop; soon his work began to get recognized and he was invited to demo at Coast Airbrush or Anaheim. Steve then began teaching advanced technique classes for Airbrush Action Magazine. He has taught classes for Iwata, Aset, Createx, House of Kolor, PPG, and Auto Body Specialties. His classes cover airbrush use and technique, color usage and mixing. He not only instructs in airbrush use, but full size spray gun use including base, color, clear coats, metallics, pearls and graphics.**

Fill out this form to use for the prize drawing!
