

## Hurricane Harvey/Irma Relief Effort

To:

Dear,

As you know this fall has brought multiple storms that have devastated many in our industry in Houston & Florida. The Collision Industry Foundation (CIF) was formed to assist Collision Industry Professionals in need when disasters strike. CIF was there after Katrina, Sandy and other disasters to deliver aid to those impacted in our industry.

It is estimated that less than 10% of those damaged by the Hurricanes carried flood insurance. So, the need is great and will continue to be so for the foreseeable future. We ask that you strongly consider giving generously so that we may continue to serve those in need.

Your tax-deductible donation will be utilized to assist those in need, after careful vetting of loss and validation of industry position. 100% of all donations go to serve those in need by our committee of all volunteers.

For more information visit:

<http://collisionindustryfoundation.org/donation-commitment-form/>

Thank you for your assistance so we may serve those in need.

Sincerely,

**William Shaw**  
President

**Michael Quinn**  
Harvey/Irma Relief Chair
